Note

L1 to L11 are metro lines, mostly underground. T1 to T6 are tramway lines, mostly on the surface.
The track gauge for the whole network is the international rail gauge (1,435 mm), with the exceptions of:
- L1's Iberian gauge (1,672 mm)
- L8's metre gauge (1,000 mm)
Right hand traffic, except on line L2 between Monumental and Paral·lel, and on lines L9-10, where tracks are superimposed (southbound trains operate over northbound ones).
Station names in extensions are indicative and may change before the inauguration.

Thanks go to all forum members of <http://www.transport.cat> and <http://www.skyscrapercity.com> and especially pongre (Johan Tingsvall) for his help and support.
